

AGRICULTURAL OPERATIONS FROM JANUARY TILL DECEMBER

ENGLISH

JANUARY

1. Do first top dressing and irrigation of wheat crop in low altitude region.
2. Start preparing the land for cultivation of spring potato in high altitude region.
3. Harvest banana fruit.
4. Harvest areca nut and black pepper.
5. Start digging the pit for winter planting of fruits planted.
6. White wash, irrigate and give manure to the fruit trees.

KHASI

KYLLALYNGKOT

1. Ai dawai sbob nyngkong ia u kew bad ai um ruh kumjuh khamtam ha ki jaka ba kham them.
2. Sdang puh ia ki lyngkha rep ban thung ia u phan pyrem ha ki jaka ba kham kynjang.
3. Kheit ia ka kait na ki diengkait.
4. Kheit ia u kwai bad u sohmrit.
5. Sdang tih thliw ban thung ia ki jait diengsoh tlang.
6. Ai pushara shun ia ki diengbah jong ki diengsoh, ai um bad ai sbob ia ki diengsoh ruh.

7. Start pruning and grafting of fruit plants.
 8. Control lichen and moss in the orchard with caustic soda.
 9. Give water to vegetable and fruit nurseries.
 10. Start preparing the seedbed for sowing of tomato in low altitude region.
 11. Start preparing the land for sowing of lady's finger, pumpkin and French bean in low altitude region.
 12. Start harvesting the mustard crop for seed (oil extraction) purpose in low altitude region.
 13. Start collecting paddy straw, well rotted cow dung and soil for substrate and casing for button mushroom.
7. Sdang ban ngor ia ki tnat diengsoh bad krap ruh ia ki diengsoh.
 8. lada ia ki kper soh na u sohpaillen bad ki kynja ñiut maw da u soda kthang.
 9. Ai um ia ki jhur bad ki sara soh ruh kumjuh.
 10. Sdang puh ia ki lyngkha ha ki jaka ba kham them na ka bynta ban bet ia ki symbai sohsaw.
 11. Sdang puh ia ki lyngkha na ka bynta ban bet ia u symbai bhindi, pathaw bad u phrisbin ha ki jaka ba kham them.
 12. Sdang kheit bad lum ia ki jhur tyrso ba la long symbai (na ka bynta ban ioh khyrwait umphñiang) ha ki jaka ba kham them.
 13. Sdang ban lum ia u skum kba, ka eit masi ba la pyut bha bad ka khyndew ruh kumjuh khnang ban pynlong kum ka kynja syrtap lane nongrim ban ioh pynmih tit budam.

ENGLISH

FEBRUARY

1. Do first top dressing and irrigation of Boro paddy in low altitude region.
2. Do second top dressing and irrigation of wheat crop in low altitude region.
3. Start preparing the land for sowing of summer potato from 3rd week of this month in high altitude region.
4. Irrigate, white washing and give manure to fruit trees in the orchard.
5. Give water to vegetable and fruit nurseries.
6. Start transplanting the tomato seedlings in low altitude region.

KHASI

RYMPHANG

1. Ai dawai sbobh nyngkong ia u jait kba Pyrem (Boro) bad ai um ruh kumjuh ha ki jaka ba them.
2. Ai dawai sbobh ha ka sien kaba ar ia u kew bad ai um ruh kumjuh ha ki jaka ba kham them.
3. Sdang puh ia ki lyngkha rep ban thung ia u phan lyiur naduh ki taiew ba lai jong une u bnai ha ki jaka ba kham kynjang.
4. Ai um, ai pushara shun ia ki diengbah jong ki diengsoh bad ai sbobh ruh ia ki diengsoh ha ki kper soh.

7. Start preparing the land for sowing of Kharif maize in low altitude and high altitude region.
8. Start preparing the land for sowing of jute (*Capsularis*) in low altitude region.
9. Start preparing the land for sowing of cotton in low altitude region.
10. Start preparing the seed bed for sowing of chilies, capsicum, tomato in high altitude region.
11. Do top dressing and earthing up of lady's finger, pumpkin and French bean in low altitude region.
12. Start watering the seed bed for clonal nursery of tea.
13. Preparing of compost for button mushroom cultivation.
5. Ai um ia ki jhur bad ki sara diengsoh ruh kumjuh.
6. Sdang rah tynrai ia ki sara sohsaw ha ki jaka ba kham them.
7. Sdang puh ia ki lyngkha ban thung ia u riewhadem lyiur ha ki jaka ba them bad ha ki jaka bakynjang ruh kumjuh.
8. Sdang puh ia ki lyngkha ban thung ia u sainalia (*Capsularis*) ha ki jaka ba kham them.
9. Sdang puh ia ki lyngkha ban thung ia u kynphad ha ki jaka ba kham them.
10. Sdang puh ia ki lyngkha ban bet ia ki symbai sohmynten, sohmynten jhur, sohsaw ha ki jaka ba kham kynjang.
11. Ai dawai sbob bad ai khyndew ia ki jingthung kum u bhindi, u pathaw bad u phrisbin ha ki jaka ba kham them.
12. Sdang ban ai um ia ki jaka sara symbai slasha.
13. Pynkhreh ia ki sbob ñiut ban thung tit budam.

KHASI

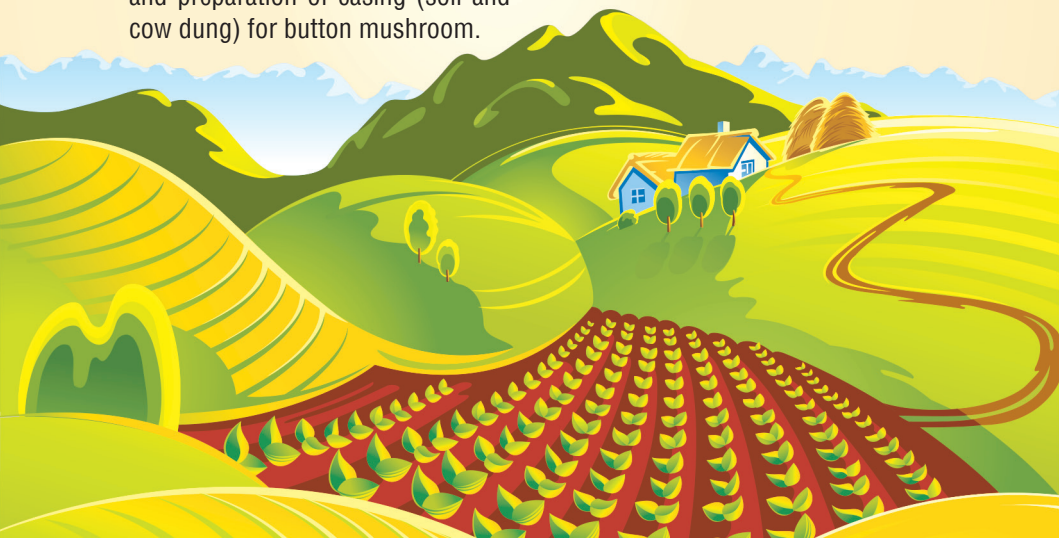

MARCH

LBER

1. Irrigate wheat crop in low altitude region.
2. White wash, irrigate and give manure to fruit trees in the orchard.
3. Give water to vegetables and fruit nurseries.
4. Start weeding and earthing up of tomato seedlings (February planted) in low altitude region.
5. Start preparing the seed bed for sowing of tomato in high altitude region.
6. Start preparing the land for planting of Kharif maize in both high altitude and low altitude regions.

1. Ai um ia u kew ha ki jaka ba kham them.
2. Ai pushara shun ia ki diengbah jong ki diengsoh, ai um bad ai sboh ia ki diengsoh ha ki kper soh.
3. Ai um ia ki jhur bad ki sara diengsoh.
4. Sdang thiew ia ki niut bad ai khyndew ia ki sara sohsaw (ba la dep thung ha u bnai Rymphang) ha ki jaka ba kham them.
5. Sdang ban pynkhreh ia ki lyngkha ban bet ia u symbai sohsaw ha ki jaka ba kynjang bha.
6. Sdang ban pynkhreh ia ki lyngkha ban thung ia u riwhadem lyiur ha ki jaka bakynjang bha bad ha ki jaka ba kham them ruh kumjuh.
7. Sdang ban pynkhreh ia ki lyngkha rep ban bet ia u jait kba lyiur (Ahu) ha ki jaka ba kham them.
8. Sdang ban ot ia u kew ha ki jaka ba kham them.
9. Sdang ban pynkhreh ia ki lyngkha rep ban thung

7. Start preparing the land for sowing of Ahu paddy in low altitude region.
 8. Start harvesting the wheat crop in low altitude region.
 9. Start preparing the land for sowing of Jute (Olitorius) in low altitude region.
 10. Start preparing the land for sowing of Mesta, Cotton in low altitude region.
 11. Start preparing the land for sowing of chillies, capsicum, lettuce, onion, French bean, mustard, pumpkin in high altitude region.
 12. Top dressing and earthing up of lady's finger, cucurbits (February planting) in low altitude region.
 13. Start constructing overhead shade for May and June Tea propagation and filling of sleeves for planting of clones.
 14. Control weeds and first application of fertilizer, tipping in mature tea plantations.
 15. Spawning of compost, incubation and preparation of casing (soil and cow dung) for button mushroom.
- ia u sainalia (Olitorius) ha ki jaka ba kham them.
 10. Sdang ban pynkhreh ia ki lyngkha rep ban thung ia u Mesta bad u kynphad ha ki jaka ba kham them.
 11. Sdang ban pynkhreh ia ki lyngkha rep ban thung ia u sohmynten, sohmynten jhur, u salad, u piat, u phrisbin, u tyrso, u pathaw ha ki jaka ba kynjang bha.
 12. Ai dawai sboh bad ai khyndew ia u bhindi, bad kiwei kiwei pat ki jait jingthung (ba la thung ha u bnai Rymphang) ha ki jaka ba kham them.
 13. Sdang ban pynkhreh ia ki jaka ba kah syrngiew na ka bynta ki slasha ba ju thung ha ki bnai Jymmang bad Jylliew bad pyndap khyndew ia ki jaka ba la buh khnang ban ioh thung da kiwei pat ki jait slasha.
 14. lada na ki niut bad ai sboh nyngkong eh ia u slasha, kheit noh ia ki bynta ba shakliar jong ki slasha kiba la kham iaw.
 15. Pynkhreh ia ki sboh niut ryngkat bad ki symbai tit, pynsyaid bad pdem ia kine ki symbai tit, pynkhreh ruh ia ki kynja synduk lane ki kynja jingsop (kiba don lang ka khyndew bad ka eit masi) na ka bynta ban pynmih tit budam.

APRIL

IAIONG

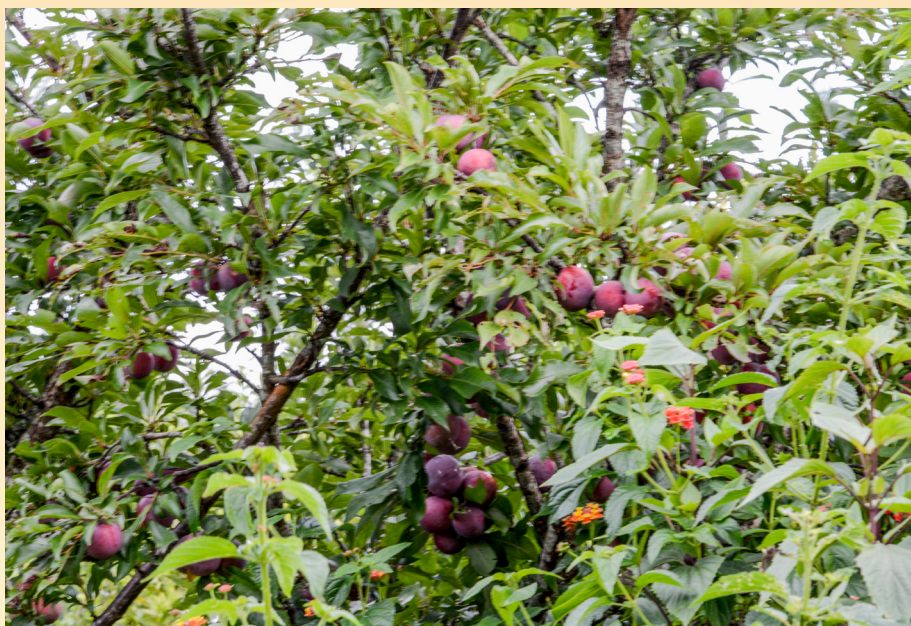

1. Give final irrigation of Boro paddy and harvest them (December transplanted) in low altitude region.
 2. Do top dressing and earthing up of spring and summer potato in high altitude region.
 3. Seedbed preparation and sowing of tomato in high altitude region continues.
 4. Start preparing the main field for transplanting of tomato in high altitude region.
1. Ai um khatduh eh ia ki jait kba Pyrem (Boro) bad ot noh ia ki (kiba ju rah tynrai ha u bnai Nohprah) ha ki jaka ba kham them.
 2. Ai dawai sboh ia u phan pyrem bad u phan lyiur bad ai khyndew ruh ia ki ha ki jaka ba kynjang bha.
 3. Pynkhreh ia ki lyngkha ban bet ia ki symbai sohsaw ha ki jaka bakynjang bha.
 4. Sdang ban pynkhreh ia ki lyngkha ban rah tynrai ia u sohsaw ha ki jaka bakynjang bha.
 5. Pynkhreh ia ki jaka sara ban bet ia u kba Lyiur ha ki jaka ba shu pdeng ka jingkyngang bad ha ki jaka ba kynjang bha.

5. Prepare the nursery bed for sowing of Kharif paddy in medium and high altitude regions.
6. Start harvesting the seeds of cole crops, carrot, radish ect. For seed purpose in high altitude region.
7. Land preparation and sowing of French bean, capsicum, onion, cucumber, pumpkin in high altitude regions.
8. Start preparing the land and broadcasting of Kharif paddy in medium altitude and high altitude regions.
9. Start weeding and top dressing of jute (olitorious) in low altitude region.
10. Prepare the land for sowing of Mesta, cotton in low altitude region.
6. Sdang ban lum ia ki symbai jong ki jingthung kum u kubi, u phulkubi, u muli, u kajor, bad kiwei kiwei de ha ki jaka ba kynjang bha.
7. Puh ia ka khyndew ban thung ia u phrisbin, u sohmynten jhur, u piat, u sohkhia bad u pathaw ha ki jaka ba kynjang bha.
8. Sdang ban pynkhreh ia ki lyngkha ban bet ia u jait kba Lyiur ha ki jaka ba shu pdeng ka jingkynjang bad ha ki jaka ba kynjang bha ruh kumjuh.
9. Sdang ban thiew ia ki niut bad ai sbob dawai ia u sainalia (Olitorius) ha ki jaka ba kham them.
10. Pynkhreh ia ka khyndew ban thung ia u Mesta, u kynphad ha ki jaka ba kham them.
11. Sdang ban pynkhreh ia ka khyndew ban thung ia u rymbai ktung ha ki jaka ba kynjang bha.
12. Sdang ban sop ia ki tnat diengsoh ha kata ka rukom khnang ba ki thied ba thymmai kin mih na kine ki jaka ba la sop bad lah ban

11. Start preparing the land for sowing of soyabean in high altitude region commences.
 12. Start doing layering of litchi, Assam lemon, guava ect. in medium altitude and low altitude region.
 13. Start planting Assam lemon, Black pepper cuttings and banana suckers in low altitude region.
 14. Start preparing the nurseries for sowing seeds of cole crops in high altitude region.
 15. Apply Y.T.D mixture in poor growth seedlings.
 16. Harvest button mushroom.
- pyndonkam da kine ban thung diengsoh thymmai ha ki diengsoh manir, sohjew Assam, sohpriam bad kiwei kiwei de ha ki jaka ba shu pdeng ka jingkyngang bad ha ki jaka ba kham them ruh kumjuh.
13. Sdang ban thung ia u sohjew Assam, ki thning sohmrit bad ki thning kait ha ki jaka ba kham them.
 14. Sdang ban pynkhreh ia ki jaka sara ban bet ia ki symbai jong ki jingthung kum u kubi, u phulkubi, u muli, bad kiwei kiwei de ha ki jaka ba kynjang bha.
 15. Ai da ka dawai khleh Y.T.D. (kaba mut ka dawai sboh kaba kynthup lang ia ka jingbam Nitrogen, Phosphorus bad Potash (NPK) ha kane ka rukom 10:5:10 lane 10:5:15 bad ka rukom ai ia kane ka dawai sboh ka shong katkum ka jingdon jong u potash ha ka khyndew) ia kito ki sara slashi ki bym heh bad san thikna ha ka rukom kaba dei.
 16. Kheit ia ki tit budam.

OCTOBER:

RISAW:

1. Harvest vegetables like cabbage, knol-knol, radish chillies and brinjal in high altitude region.
 2. Do weeding, top dressing and earthing up of maize in medium altitude and low altitude regions.
 3. Harvest lady's finger, cucurbits brinjal and chillies in low altitude region.
 4. Do weeding, top dressing and earthing up of pea , mustard , garlic lettuce, in high altitude region.
1. Ot noh ia ki jhur kum u kubi, u knol- khol, u muli, u sohmynten bad u sohbaingon iong ha ki jaka bakynjang bha.
 2. Thiew ia ki ñiut, ai dawai sboh bad ai khyndew ia u riewhadem tlang ha ki jaka ba shu pdeng ka jingkynjang bad ha ki jaka ba kham them.
 3. Kheit ia u bhindi, u sohbaingon iong bad u sohmynten ha ki jaka ba kham them.
 4. Thiew ia ki ñiut, ai dawai sboh bad ai khyndew ia u motor, u tyrso, u rynsun, u salad, ha ki jaka ba kynjang bha.

5. Start doing harvesting of cauliflower (early transplanted) in high altitude region.
 6. Start doing harvesting of root crops (early planted) in high altitude region.
 7. Start doing harvesting of lady's finger, bitter gourd in low altitude region (early planted).
 8. Start doing harvesting of Kharif paddy (early transplanted) in high altitude and medium altitude regions.
 9. Start preparing the land for sowing of lentil in low altitude region.
 10. Start filling the soil in polythene sleeves and planting of tea cuttings, seed bed preparation for planting tea seeds.
 11. Start preparing compost for Button mushroom cultivation.
5. Sdang ban kheit ia u phulkubi (ba la thung kham kloi) ha ki jaka ba kynjang bha.
 6. Sdang ban kheit ia ki jingthung ba long bam da ki thied (ba la thung kham kloi) ha ki jaka ba kynjang bha.
 7. Sdang ban kheit ia ki jingthung kum u bhindi, u karela kthang ha ki jaka ba kham them (ba la thung kham kloi).
 8. Sdang ban ot ia u kba lyiur (ba la thung kham kloi) ha ki jaka ba kynjang bha bad ha ki jaka ba shu pdeng ka jingkynjang.
 9. Sdang ban pynkhreh ia ka khyndew ban thung ia u jhur lentil ha ki jaka ba kham them.
 10. Sdang ban pyndap ia ka khyndew ha ki pla plastic bad thung ia u slasha, pynkhreh ia ka khyndew ban thung/bet ia u symbai slasha.
 11. Sdang ban pynkhreh ia ki sboh ñiut ban thung ia u tit budam.

ENGLISH

NOVEMBER:

1. Start preparing the nursery bed for sowing of Boro paddy in low altitude .
2. Harvest Sali paddy in low altitude region.
3. Harvest cauliflower in high altitude region.
4. Start preparing the land for sowing of wheat in low altitude region.
5. Do top dressing of rape and mustard in low altitude region.
6. Start doing harvesting of pea, mustard, lettuce in high altitude

KHASI

NAIWIENG:

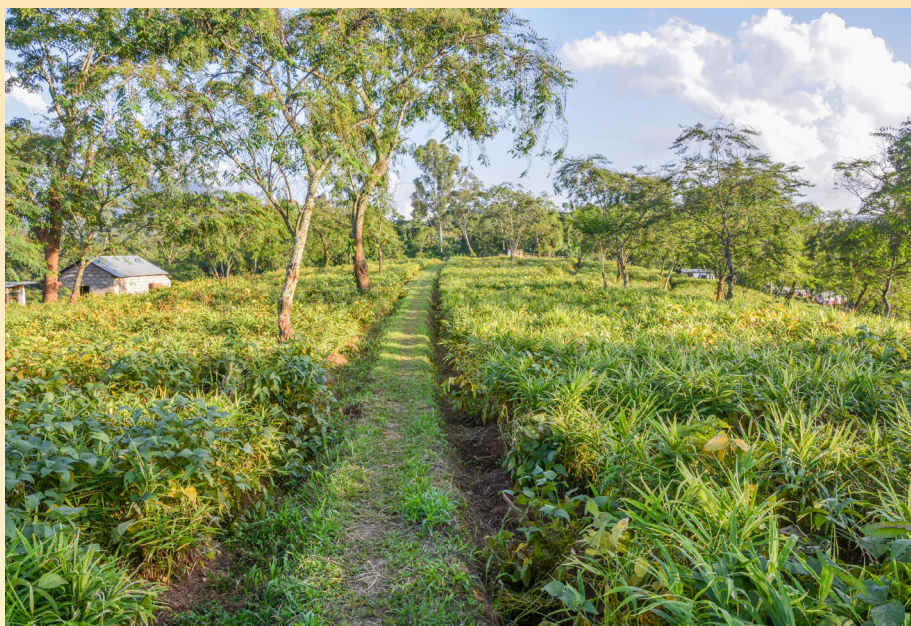

1. Sdang ban pynkhreh ia ki jaka sara ban thung/bet ia u kba Pyrem (Boro) ha ki jaka ba kham them.
2. Ot noh ia u kba tlang ha ki jaka ba kham them.
3. Kheit ia u phullkubi ha ki jaka ba kynjang bha.
4. Sdang ban pynkhreh ia ka khyndew ban thung ia u kew ha ki jaka ba kham them.
5. Ai dawai sboh ia ki jingthung kum u tyrso ha ki jaka ba kham them.
6. Sdang ban kheit ia ki jhur kum

- region .
7. Harvest root crops in high altitude region.
 8. Start doing harvesting of Lady's finger, bitter gourd in low altitude region.
 9. Harvest French bean in high altitude, medium altitude and low altitude region.
 10. Start preparing the land for second transplanting of cole crops , radish, carrot and leafy vegetables for seed purpose in high altitude region.
 11. Do weeding and jungle cleaning of orchard plantation.
 12. Do sowing of seeds of seeds of fruit plants for rootstock.
 13. Start doing harvesting of mandarin orange/arecanut.
 14. Do sowing of tea seeds in prepared nurseries .
7. Tih ia ki jingthung ba long bam da ki thied ha ki jaka ba kynjang bha.
 8. Sdang ban kheit ia ki jhur kum u bhindi, u karela kthang ha ki jaka ba kham them.
 9. Kheit ia u phrisbin ha ki jaka ba kynjang bha, ki jaka ba shu pdeng ka jingkynjang bad ki jaka ba kham them.
 10. Sdang ban pynkhreh ia ka khyndew ban rah tynrai ha ka sien kaba ar ia ki jingthung kum u kubi, phulkubi, muli, u kajor bad kiwei kiwei pat ki jingthung ba long bam da ki sla jingthung na ka bynta ban pynmih symbai ha ki jaka ba kynjang bha.
 11. Thiew ia ki ñiut bad pynkhuid ia ki kpersoh.

15. Do light pruning and deep skiffing of tea bushes in the plantation.
16. Start doing harvesting of cotton in low altitude region.
17. Spawning of compost, incubation, preparation of casing (Soil and cowdung) for Button mushroom.
12. Thung ia ki symbai jong ki diengsoh na ka bynta ban pynmih ia kito ki bynta jong ki diengsoh kiba lah ban ban pynmih thied haba krap ia ki diengsoh.
13. Sdang ban kheit ia ki sohñiamtra/kwai.
14. Thung ia ki symbai slasha ha ki jaka sara.
15. Ngor noh ia ki lawbniap slasha ha ki jaka thung slasha.
16. Sdang ban kheit ia u kynphad ha ki jaka ba kham them.
17. Pynkhreh ia ki sboh ñiut ryngkat ki symbai tit, pdem bad pynsyaid ia ki, pynkhreh ruh ia ki kynja synduk (ka khyndew bad ka eit masi) na ka bynta ban pynmih tit budam.
